Drueke GAMES

"Creators of Fine Games For Over A Half Century"

DRUEKE

The Knight To Remember

Established in 1914, the Wm. F. Drueke Co. is one of America's oldest manufacturers of fine chess sets. Originally specializing exclusively in the manufacturing of choice sets, the acceptance and appreciation of connoisseurs has led to a large and diversified line. Today the heritage of three generations of painstaking effort and devotion to the creation of fine games is still the inspiration guiding the artisans at Wm. F. Drueke & Sons, Inc.

Supplementing these intangible qualities are the latest types of equipment coupled with modern and economical assembly operations. From the rough lumber to the final finishing, complete control assures maintenance of these standards. The combination of these merits has significant relation to your orders for any of these products.

In 1970 special equipment was installed to greatly improve the finish on our wood products.

This new catalog has been rearranged and condensed to make the selection of our items more convenient for the buyer.
